## **creative archistar**

Crystal effect transparent finish

---

### **GENERAL PROPERTIES**

CREATIVE ARCHISTAR is a waterborne decorative finish for interior design. It contains particular rainbow effect holographic particles which lend multicolour light reflections, on white or coloured surfaces, which evoke bohemia crystal glass.

CREATIVE ARCHISTAR lends an original emotional impact which facilitates the personalization of living spaces in harmony with individual tastes.

CREATIVE ARCHISTAR is odourless and has been devised to guarantee maximum comfort & habitability *just* a few hours after application. It does not yellow, it is dust repellent, surfaces stay clean longer and can be recoated with any ARD latex paint.

---

### **INSTRUCTIONS**

#### **Substrate preparation:**

- Bare walls or walls with distemper paintwork: ensure the substrate has weathered for at least 28 days.
- Use a soft brush to remove any fine dust and unsound plaster. Level any imperfections with LITOSTUCCO, adding as many times as necessary.
- Allow 6 hours, sand repair areas & clean thoroughly.
- The choice of sealer & thinning depends on the substrate, ARDFIX or ISOLEX W are fine in most cases.
- Allow the surface to dry and apply one or more layers of CREATIVE FONDO in order to obtain an even surface. Allow at least 6 hours before applying the subsequent products.
- CREATIVE ARCHISTAR can be applied on different types of products - from smooth to textured finishes -. We recommend ARD SAND & DESERT STONE.
- Wooden surfaces or bare chipboard panels: clean the smoothed surface and level any imperfections (knots, joints, nails, cracks etc.) with LITOSTUCCO. Sand, clean and apply one or two hands of CREATIVE FONDO in a matching hue. Apply the desired finish after six hours..

## Application:

- Brush: thin at 15% in water volume and apply a homogeneous layer by criss-cross brushing.
- Remove any protective tape upon completion and clean the equipment immediately with plenty of water.
- Do not apply when ambient humidity causes condensation or in over heated premises.
- Store in frost free premises and do not apply below +5°C.
- Use in compliance with the current Health & Safety Regulations. Do not release the containers into the environment.

SPECIFIC WEIGHT		980 ± 30 g/l
VISCOSITY AT 20 °C		8000 ± 2,000 cP
DRYING AT 20°C	TOUCH DRY	4 hrs
	THROUGH DRYING	24 hrs

## YIELD

The coverage varies according to the roughness of the substrate. Applying CREATIVE ARCHISTAR on DESERT STONE implies a yield of approx. 10 m<sup>2</sup>/l. The coverage increases when applied on smooth surfaces.

---

## SPECIFICATION

### CRYSTAL EFFECT TRANSPARENT FINISH

Single layer brush application of a water repellent, odourless, transparent finish based on special binders & holographic pigments - CREATIVE ARCHISTAR - with a consumption that varies from 0,08 to 0,10 l/m<sup>2</sup>.

€/m<sup>2</sup>
